MISSION

To deliver consistent quality, food safety and reliable supply through modern farming and efficient processing

SECTION 1

GOLDEN CORN PLANTATION SDN. BHD.

Farming, Cultivation & Raw Corn Supply

**Agriculture
that grows
with time.**

About Us

GoldenCorn
Plantation Sdn. Bhd.

Golden Corn Plantation Sdn. Bhd. was established in November 2023 as a private limited company, incorporated from Sin Wang Enterprise, a sole proprietorship founded in 2005.

The company operates a fully integrated sweet corn ecosystem, managing the entire value chain from plantation to finished products with wide range of corn-based products, including fresh, frozen, and ready-to-eat.

Golden Corn Plantation's network spans over **380 acres**, supported by more than **220 acres of contract farming partnerships**, enabling a stable year-round supply with consistent quality and yield, with a daily production capacity of approximately 60,000 to 70,000 pieces of sweet corn. In addition, the group has further expanded its operations through the establishment of **Golden Corn Plantation (Muadzam) Sdn. Bhd.**, a newly developed **445 acres** farming project focused on large-scale sweet corn cultivation.

Golden Corn is **not just a supplier, but a producer and processor**, supported by a modern processing facility in Industri Angkasa Nuri, Melaka, enabling full control over quality, consistency, and large-scale production.

Golden Corn Plantation currently operates under **MyGAP-certified** farming practices. Additional certifications including GMP, HALAL, ISO 22000, MESTI, and HACCP are managed under Golden Corn Marketing Sdn. Bhd., supporting the group's processing and distribution operations.

*Harvested with Care,
Delivered with Pride*

OUR VISION

To be leading agro food manufacturing company in South East Asia

OUR MISSION
